

CLINICAL FOUNDATION OF ORTHOPEDICS, ORTHODONTICS & T.M.D.

Presents:

“THE NEURO LECTURE”

October 22 & 23 2010

Terry Spahl
B.S., D.D.S.

16 CE Hrs

Is one of the most comprehensive, detailed and enlightening course on chronic pain of all time. It answers many of the most perplexing and mysterious questions regarding chronic orofacial pain and headache management of the TMJD patient in practical, understandable terms that the dental clinician can directly apply immediately, easily (and inexpensively) in daily practice, especially with orthodontic, TMJD orofacial pain, and chronic headache patients with incredible success rates.

Co-Authored The Following:

“The Clinical Management of Maxillofacial
Orthopedics & TMJ Therapeutics”

Vol 1 - Mechanics

Vol 2 - Diagnostics

Vol 3 - Temporomandibular Joint

- 4 different types of channelopathies and their effects on the TMJD-ID patients
- Somatic pain vs sympathetic pain and how they are interrelated
- The difference between primary pain and secondary heterotropic pain and their neurological and anatomical differences
- The relationship between orthodontics, TMJD treatments, chronic headache and how they are interconnected and what basic treatment approaches solve these problems at their source
